Dear Ray,

I just wanted to take this opportunity to let you know how much we enjoyed working with the Toghotthele Corporation during the building of the White Mountain Native Store.

We feel that the uniqueness, timing, and location of this build were challenges that many others would have not been able to overcome. The determination and dedication to finishing the job, was also matched by the finish of a quality project. We expect that the store will serve the community well into the future.

Simply put, we are happy with the project and when the time comes for our next project you will be receiving a phone call. Please feel free to use us as a reference whenever the opportunity arises.

Thanks Again,

Aaron Thom
