To Whom It May Concern:

Toghotthele Corporation, Nenana, Alaska was awarded a Turn-key completion contract by Maniilaq Services LLC for the Design-Build Project to construct a new bunkhouse for the United States Forest Service in St. Anthony, Idaho. The project had been delayed for variety of reasons and when Maniilaq Services LLC contracted with Toghotthele Corporation, they picked up the project from partial construction to completion, including on-site management of subcontractors, site safety, quality control, inspections, permitting, and project documentation.

I would recommend their construction services. They entered a difficult situation and made it work for all concerned delivering a high quality project.

Respectfully,

Dan Backman
General Manager
